This year's jubilee 45<sup>th</sup> Pomeranian Meetings with Diaporama was characterised by a very high level of submitted works. The jury watched with great interest the 55 works sent from 9 countries including: England, France, The Netherlands, India, Poland, Northern Ireland, Republic of South Africa, Slovakia and Italy. While deciding the final results the jury were engaged in eager but fruitful discussion. The highest ratings went to the works commenting on social issues and the problems of contemporary world. The use of AI for translation was noted which made it possible to understand the message but at the same time contained a number of linguistic errors. It is also the first time when the works of artists from India and Northern Ireland have been presented during the Pomeranian Meetings with Diaporama.

We would like to congratulate the authors of awarded works and we wish you all success in realizing future multimedia projects.
